

Marketing

10 ways **Office 365** empowers Marketing

Align customer experience

inside your organisation through discussion groups on Yammer.

Enhance internal collaboration

with branded internets and portals, created with SharePoint Online.

Reinforce brand consistency

across your organisation using the Office 365 theming engine.

Analyse market trends and campaign success with Power BI and Excel.

Co-author marketing

documents with colleagues, simultaneously with SharePoint Online and Office web apps.

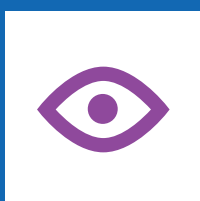

Easily schedule calls and meetings with suppliers and partners with Skype for Business.

Align conversion goals, strategies and marketing tools, across your organisation with SharePoint Online.

Create dashboards pages powered by data from Excel with SharePoint Online.

Publish eye-catching content on the go with Publisher.

Share your content securely on OneDrive for Business, and Yammer, the enterprise social network.

Our Expertise, Your Potential.
