

10 ways **Office 365** empowers Sales Teams

Prioritise important emails
with Outlook's Clutter feature.

Present organisation updates,
across locations, with Group
Conferencing from Skype
Business.

Share organisation updates,
and find the answers to your
questions with Yammer, the
enterprise social network.

**Access and edit documents
and presentations** on any
mobile device using Office
365 native applications.

**Communicate with your
teams** with Skype IM, and
know their availability with the
live presence feature.

Co-author documents and presentations with your team, regardless of your location.

Let relevant information find you with Delve.

View trends, and seek opportunities with self service business intelligence within Power BI and Excel applications.

Synchronise your ad-hoc tasks across devices in OneNote.

Create voting polls to test your insights with Yammer, the enterprise social network.

Our Expertise, Your Potential.
